

KINGSMILLS MEDICAL PRACTICE

Important information, please read carefully

As a practice, we are pleased to offer travel vaccinations and travel health advice. Please, see attached form for details of charges.

Those travelling on package deals to popular tourist resorts are less at risk of travel related diseases than those "trekking" to many countries or for a prolonged length of time, and those that are likely to be some distance from medical aid.

Anyone planning prolonged travel for more than 3-4 weeks i.e trekking, please contact us as early as possible to allow us sufficient time to plan your travel vaccination programme. For routine holiday vaccination enquiries, please contact us 2-3 months in advance. Please, note that it may take up to 14 days to process.

If unable to contact us well in advance, or unable to attend appointments that we are able to offer, you can book an appointment with R S Occupational Health Ltd. If you contact them on tel 01463 513 100, they will be able to explain their charges and appointment system.

In the meantime, if you have any enquiries you may find the web site listed below useful:

<http://www.fitfortravel.scot.nhs.uk/>

For travel within Europe, you can obtain an EHIC card free from:

<http://www.nhs.uk/NHSEngland/Healthcareabroad/EHIC/Pages/about-the-ehic.aspx>

Collection and storage of Vaccines:

EITHER:

Collect from chemist before coming in for appointment. Phone' chemist before collecting, to make sure that they have vaccine in and ready for collection, and allow plenty of time before your appointment.

OR:

Collect from chemist and hand in to surgery. However, in case of a fridge failure, resulting in vaccines having to be discarded, you will be responsible for the cost of replacing your vaccines.

Please, note that it is your responsibility to contact the surgery to find out what vaccines you may need, and to make any appointments required.

PRE-TRAVEL QUESTIONNAIRE/RISK ASSESSMENT

KINGSMILLS MEDICAL PRACTICE FEES AND CHARGES

Some services provided by the GP Practice are not covered under our contract with the NHS and therefore attract charges. Examples of Non-NHS services for which the GP can charge their patients are: Certain travel vaccinations, Holiday cancellation claim forms, Private medical insurance reports, Letters requested by, or on behalf of, the patient.
(The fees charged are based on the British Medical Association suggested scales).

Travel Vaccinations:			
Yellow Fever (no prescription required – obtained at practice)		£75.00	
<p>The following vaccines are NOT covered by NHS arrangements and therefore attract a charge. We charge £15.00 for the private prescription plus £15 for each appointment to administer the vaccine course. The full cost is payable on collection of the prescription. (We can include up to 3 items on a private prescription).</p> <p><i>In addition to our charges, there will be a charge for buying the vaccine from the Pharmacy – prices vary so it can pay to shop around.</i></p>			
Vaccination	Prescription Charge	Number of consultations required	Total Cost
Japanese Encephalitis	£15	2 at £15 each	£45
Hepatitis B	£15	3 at £15 each	£60
Rabies	£15	3 at £15 each	£60
Meningitis ACWY	£15	1 at £15	£30
Tick Borne Encephalitis	£15	2 at £15 each	£45

The following vaccines are usually available FREE under the NHS :			
Vaccination	Prescription Charge	Number of doses required	Cost
